

Heidegger: Thought and Historicity

Philosophy / Comparative Literature

Christopher Fynsk offers a sustained critical reading of works written by Martin Heidegger in the period 1927–1947. His guiding concerns are Heidegger's notions of human finitude and difference, which Fynsk first addresses through an analysis of the role played by *Mitsein* in *Being and Time*. This analysis in turn affords a critical perspective on Heidegger's own interpretive encounters with Nietzsche and Hölderlin.

For the paperback, Fynsk has added a new chapter on the recent controversy surrounding Heidegger's politics. Polemical in style, it seeks to define what is at stake in "the Heidegger affair" and points to some of the questions for philosophy and politics raised by the new legibility of Heidegger's political engagements.

"Among the best works on Heidegger to appear in recent years. . . . Highly recommended."—*Choice*

"A genuine advance in Heidegger studies. . . . Eloquent and exciting."—*Times Higher Education Supplement*

"Beyond theme and concepts, a rigorous deciphering of the Heideggerian *texte* reopens the crucial debates of our time: on *mimesis*, on the relations between philosophy and literature, on the act of interpretation, on fiction, figurality, and performing writing."—Jacques Derrida

Christopher Fynsk is Associate Professor of Comparative Literature at Binghamton University. He is currently Chair of the Department of Comparative Literature and Co-Director of the program in Philosophy, Literature, and the Theory of Criticism.
